Excellent fulfillment as expected from Amazon. I have used Brainol for one month. I normally don't pay much attention to anecdotal reports such as this one, but I must say that I notice improved recall of everyday activities, less worrying about being forgetful and am reordering.

Better nootropic than others on the market

August 24, 2018

Package Quantity: 6 **Verified Purchase**

Brainol contains many of the ingredients recommended for an effective nootropic to have without getting into multiple stacks of nootropics. It doesn't have all of them, but then no single product has. After reading what is recommended for good brain health and deciding which ingredients were what we needed, Brainol is what I selected for my husband who has been taking it for about 9 months. According to our neurologist, it does contain some necessary ingredients for memory and cognitive issues. Whether it helps 100% or not is hard to say, but it hasn't hurt him and perhaps it is staving off further memory issues by him taking it. I had been ordering Brainol from their website but found it on Amazon with free shipping and faster delivery. A 5-star rating would result if I absolutely saw a big improvement in my husband's memory functioning.

March 31, 2018

I took two pills today and no change at all. I wonder why it's not working for me? I don't have any memory problem or focus I want more motivation and concentration when it comes to studying that's why I decided to try brainol but I haven't seen any of that.
