Product description

Item Package Quantity: 1

Looking to maximize your brain's health, sharpen your mental acuity, and increase performance and focus?

Hericium erinaceus (aka Lion's Mane) is one of the medicinal mushrooms that is native to North America, Europe and Asia. It has been used in traditional Chinese medicine for centuries to help strengthen cognitive performance, memory and focus. Lion's Mane is thought to help protect against memory problems and has been shown to support brain health and functioning. It may help protect against memory degradation caused by buildup of amyloid beta (a substance that also forms the brain plaques associated with Alzheimer's disease). Additionally, it contains a number of health-promoting substances and nutrition, including antioxidants and beta-glucan, and is immunosupportive and anti-inflammatory. It is considered by many as one of Earth's natural Nootropic-like brainboosters.

Why is Divine Bounty the right choice for you?

- Superior Potency - Divine Bounty's formula offers the highest strength dose of Lions Mane extract per capsule at 600 mg per pill, for a total of 1800mg per serving.
- Pure & Safe - Our Lion's Mane mushrooms are only sourced from organic farms in the U.S., and the powder is water extracted from the whole, fruiting bodies of the mushrooms.
- Superior Value - With 90 capsules per bottle, Divine Bounty's Lions Mane provides a one month supply of the most powerful brain booster available, a great value for your money. - Superior Quality
- We only use natural ingredients enclosed in vegetarian capsules. This means our Lions Mane powder is GMO free, soy free, gluten free, and free from artificial ingredients and preservatives.

Support your brain and increase focus and mental clarity daily with Divine Bounty's Lions Mane. Be smart, get yours today!

Quality product

March 1, 2019

Item Package Quantity: 1 **Verified Purchase**

My daughter has been using this for 3 weeks. She's a college student and was having some brain fog and trouble focusing, especially with all of the late night study sessions. She can already see a huge difference in her ability to focus and much less brain fog. I love that the only ingredient in it is organic Lion's Mane that is from farms in the US. I'm very please with this quality supplement. It is a product I will definitely contine to buy for my daughter.

Shockingly effective against anhedonia

I heard about this natural remedy through Paul Stamets and was not expecting anything remarkable. I didn't even know that it had anti-depressant effects. I was only taking it as a healthy brain supplement. I

am stunned. After 2 weeks I started noticing real improvement, less anxiety, and real mood changes. follow up: I've been taking 1 LM pill daily which is 600mg. Still experiencing life changing effects.

My mother is having problems with her memory, as I researched natural treatments. I came across Lions mane mushrooms as something that would help. So I tried these myself before giving them to my mother. I was so surprised by the mental clarity that I had while taking these mushrooms. It feels as if I have found some exotic smart pill. These will be part of my daily vitamin routine from here on out.

So many benefits and no side effects

I like that this is organic. My main purpose for using this was to help manage my blood sugar. My second reason was to speed up recovery for my nervous system. I was hit by a drunk driver and had a back injury that left some nerve damage. I'm hoping this will help with my post surgical recovery.

Proving effective even taking less than full dose

March 16, 2019

Item Package Quantity: 1 **Verified Purchase**

I purchased this product for a senior male who is pre-diabetic with high blood pressure, cholesterol issues, and prostate/nighttime issues. He started out taking the full dose of 3 capsules per day then cut back to only one or two capsules per day. He is able to urinate with a much more steady stream and has far less frequent needs to get up during the night. It is too soon to know if there were any other benefits related to his pre-diabetic state but I will report back in after his next A1C check up.

Lion's mane mushroom and its extract have been shown to have a variety of health benefits. Research has found that lion's mane may protect against dementia, reduce mild symptoms of anxiety and depression and help repair nerve damage.

It also has strong anti-inflammatory, antioxidant and immune-boosting abilities and been shown to lower the risk of heart disease, cancer, ulcers and diabetes in animals.
