Product description

Research suggests Halcyon's ingredients may help you improve recall, focus on complex work, and improve your overall mood and resilience to stress.

HALCYON featuring DOPA-XR extended-release Theacrine, is a proprietary, patent-pending formula, providing safe and effective nutrients empirically shown to support brain function and long-term brain health. Each ingredient is FDA compliant and clinically demonstrated to support key aspects of human cognition, including memory, focus, and motivation. Halcyon is designed to be taken daily to support long-term brain health.

Below is a very brief summary of some of the research on these compounds.

*Theacrine - Shown in a 2016 randomized, double-blind, placebo-controlled study to improve energy and concentration while decreasing levels of fatigue, anxiety, and irritability. Theacrine also increases ratings of alertness, attention, and motivation. Unlike caffeine, recent evidence has shown that people who take theacrine do not report a tolerance buildup to its effects.

*α-GPC - A natural compound of choline that is present within the brain. It is a potent precursor to the neurotransmitter acetylcholine, which is associated with memory and learning.

*Rhodiola Rosea - in several studies has reduced fatigue, anxiety, and stress. This ancient adaptogen has long been used for its reported effects on mood and

endurance.

*Anthocyanin - In a 2017 study, healthy people who consumed Anthocyanin daily for 12 weeks showed improvements in cognitive function, blood flow to the brain, and activation of the brain while carrying out cognitive tests.

*Huperzine A - In a 4 week double-blind, placebo-controlled trial, students using Huperzine A scored higher on memory tests than those who took the placebo. Huperzine A, boosts memory, and supports long-term brain health.

I've struggled with ADHD for most of my life. This is the only supplement that I've found that really helps me consistently. Regular use doesn't drain your system like other stimulants do. I'm quite grateful that this product exists.

I'm a bit of a nootropic geek and love how packed this is with ingredients. 5 times the huperzine A than top competitors, and 5 times the rhodiola rosea extract, per serving! Plus you get a full months supply. Love it.

I do supplement with a few other things, but since I've started taking Halcyon I've noticed that I have more drive at the gym even after a normal work day. I really like this as a basis for my stacks.
