I got a headache the first time

May 5, 2019

[Verified Purchase](#)

I acquired a headache after taking three capsules the first time. Headaches, I never get. I have no idea why my headached so bad. Maybe too much oxygen who knows I am not a specialist. But I know thats a symptom I got. The next day I just took one . I will slowly build to see how it goes. Here's an update on the fourth day I've been taking one capsule then at night I take another. I have had (I don't know if you call a brain fog or loss of memory.) However, I could never remember the name of my resistance bands. I always call them bungee cords and within the third day I said resistance bands all day so I know something is happening . Sounds silly but thats how I know the products working. The next test will be having a long conversations and measuring cognition and clarity by not forgetting bits and pieces. Even though I have more mental clarity I still get headaches I don't understand why but it does happen each time I take even just one.

beat or a crash. In fact I have noticed I even sleep better at night utilizing my energy more efficiently during the day.

Improved Memory Clarity

March 8, 2019

Verified Purchase

It works very well! A combination blend of 7 mushrooms that focus on sharpening your memory the natural way. Highest potency on the market and one of the few brands I could find with Maitake and Shiitake mushrooms. I highly recommend this!

Affordable mushroom supplement

May 13, 2019

Verified Purchase

I took 3 tablets in the morning daily with a high-fat, high-protein meal. In my experience this makes supplements of any kind more bioavailable.

Here's what it seemed to do: boosted immune system, reduced brain fog, as well as reduced stress somehow.

The tablets themselves are easy to swallow, easy to digest, and have an ephemeral taste that I find non-offensive.
