## The Thrive Experience Changed My Life

While I was walking my 2 miles yesterday a lot of stuff was running through my mind. Over the years my weight has fluctuated. I'll lose weight; I'll gain the weight back. I've done this for 36 years! The thing is, I KNOW how to lose weight. I've done it so many times! The most I lost was 75 lbs. Why can't I do it now? This is where I have been and I now understand why they call it a disease. This is my story...

*Getting fit and losing weight is hard work! It doesn't come easy and it doesn't come with me sitting around wishing I could lose weight, so it's easier not to try. I fell into a "slump stage" and it became an addiction and hard to find my way out! I started to have a battle within myself, but who has the time or energy to do what I need to do in order to lose weight and get healthy. I would think "I'll do it tomorrow" or "I'll start Monday." That tomorrow or that Monday seems to always get pushed back to the "next tomorrow" or the "next Monday." I WAS AT WAR WITH MYSELF. I repeated this over and over until I have completely given up on myself. I am just too tired to care at all. It's easier not to try.*

*Oh, who cares! I continued to pack on the pounds. I became very depressed and my body began to hurt! I was in a downward spiral to the darkest time of my life!*

*By this time my mom, spouse, kids, and dear friends are wondering what is happening to me. Where is the person they used to know? Where is the person who cared about her own life? Where is she?*

I've been there. I've done and thought all those things about myself. Obesity is, in fact, a disease, but it's a disease that we can cure ourselves! All it takes is a little self motivation and determination to take the first step. When your heart and mind come to terms with each other on a decision to take a stance and fight for your life, you start to notice an inner fire has been lit.

You think: YOU WILL DO THIS! II WILL SUCCEED!

Nothing will hold you back! This is your will power and it's strong. Will power is so strong that you start to show signs of life, happiness, and determination. You start to move around more. You start exercising just a tad. Your friends and family notice and tell you what a great job you are doing. You start exercising more, whether

## Thrivin' With Deidre and Sjogren's Syndrome

Meet Deidre!

*I was originally diagnosed with Sjogren's Syndrome in 2004, and then again in March 2008. Sjogren's Syndrome is an autoimmune disease, a disease in which the immune system turns against the body's own cells. In Sjogren's Syndrome, the immune system targets moisture-producing glands and causes dryness in the mouth and eyes. Other parts of the body can be affected as well resulting in a wide-range of possible symptoms.*

*I have Secondary Sjogren's Syndrome. In secondary Sjogren's Syndrome, the person has an autoimmune disease like rheumatoid arthritis or lupus before Sjogren's developed. People with this type tend to have more health problems because they have two diseases, and they are also less likely to have the antibodies associated with primary Sjogren's.*

*I have chronic anemia (which I have always had), digestion problems, heartburn, fatigue and that's just to name a few. When I was diagnosed, it was a relief to finally know why I felt the way I did,*

and the pain- it's more than I can say. Not only was there pain in my joints, but also in my lower back (I have degenerative disc disease as well), bursitis, hip pain and plantar fasciitis. Nothing has ever worked except maybe temporary for all these aches and pains. I have lived like this every day for the most part since 2004 until a very special sister/friend encouraged me to try Thrive. I was very skeptic, because I have been taking a variety of medications since my diagnosis (i.e., prednisone, Naproxen, Tramadol, Motrin 800, to name a few) and none of them did what they CLAIMED they would do. I suffered from extreme fatigue, cloudy thinking, and just constant depression from not feeling good.

I started my Thrive Experience on May 21, 2013, and I noticed a change in how I was feeling the same day. On November 21st, it will be 6 months and not only am I exercising at least 4 times a week, I have lost 40lbs and a number of inches. There is no more pain in my back, heels, shoulders or hips. I still have a little bit of joint stiffness on occasion, but nothing like it was. My digestion problems are gone. I have gone from taking Omeprazole (acid reflux medication) every day to every other day or every two days, no more ringing in the ears, and no more migraines. I just feel good.

*Thrive has changed my life in a major way and I thank God every day for this blessing. I have a new lease on life and I hope that I can share this feeling with my family and friends who suffer as I did. ~Deidre R.-Georgia*

It's extremely mind blowing how the **Thrive Experience** can reduce pain levels more than prescription meds.

Do you have Sjogren's?

ASIDE

**The holidays are creeping near and we all worry how we are going to buy everything on our kiddos' lists. I'm extending my personal promotion for my Le-Vel Brand Promoters for a chance to earn \$300 cash to add to your holiday shopping budget!**

**Here's the details:**

*From now, November 19, 2013, till the end of the month for every NEW customer or promoter you get with a Thrive Experience order of \$100 or more, I will put you in a drawing for \$300.00 CASH! For every \$400 Thrive Experience upgrade order from a NEW promoter your name will be put in the drawing 5 times. NEXT to sweeten up the deal: for every Promoter that works with NEW Promoters and helps them reach their 1600VIP you will be entered into another drawing for 300.00 CASH!*

**How? By helping me promote the Thrive Experience!**

**So you are probably wondering how to become a promoter? It's easy! Visit <http://crystalh.le-vel.com> and click the "join now" link at the top of the page.**

Once you create your Brand Promoter Account, you will be taken to the ordering screen. To start earning weekly commissions, you will need to place a \$100 minimum order. You can use this for your self or samples to your friends and family. For the ones reading this and think \$100 is too much, I have just the answer for you.

We give our promoters *FREE* product when they refer two friends, **JUST TWO FRIENDS**, to order online every month. *Yes! Free!*

How can we do that? It's simple! We are an online business, so we use cloud technology! Le-Vel owns all the technology needed to run its operations from day to day, and since we use cloud technology, that means no overhead thus allowing us to put the product and money back into the hands of the people who brought us the sales. **THAT'S YOU!**

Le-Vel pays \$660 in bonuses to new brand promoters who bring in \$800 in sales within their first 2 weeks. Crazy cool! Bring in \$1600 (VIP 1600) in sales your first 2 weeks, and Le-Vel doubles the \$660 to \$1320! It's awesome!

Get all of your friends and family to go to your website now! Help someone get \$800 in orders! \$1600 in orders in the first 2 weeks!

Duplicate! Duplicate! Duplicate!

## Le-Vel: The Right Place, The Right Time

Good morning! I'm a **Le-Vel Brand Promoter** and I want to talk to you about the different pieces that is causing this business to be an internet sensation-*a phenomenon of growth on the internet*. Le-Vel has been in business for 13 months. Of the 13 months, we've experienced rapid growth in the last 10 months. In fact, for the last 10 months, each month's sales have been larger than the previous month.

The owners of **Le-Vel**, Paul Gravette and Simon Camper, decided to build this business to have rapid growth. Everyone can join for free plus you get a free website at no additional cost. You can grow your business by using your mobile phone or lap top.

I really want everyone to grasp that whatever your background may be, whether you are an attorney, accountant, school teacher or etc, success has nothing to do with who we are at this present time. Success has to do with being at the right place at the right time with a company that has started to create a life of its own, and Le-Vel has that.

I want you to think about these points as you are looking into this company as it grows into the future. Whether you grasp it now or you choose to watch it grow.

- Le-Vel was designed so everyone can build using the Facebook effect. What that means is to **get started**, invite everyone you know, friends and family, to go to your website and enroll them for free. Basically when you are enrolling all your friends and family for free, you are building your friends' network. The more people who can join for free, the more people who trust it and they keep coming back as it naturally starts to create a life of its own. If you go to our Facebook fan page, [www.facebook.com/levelbrands](http://www.facebook.com/levelbrands), you'll never have to convince anyone about our company or its growth. The documentation is live. Our fan page grew over 2,000 people in the last 7 days. Matter of fact, the fan page has 250 new friends yesterday! Embrace that and use that as you watch this company grow. If you would just tell your friends to go to like our Facebook fan page so they can watch everything that is taking place, that alone will do more for you than anything than you try to say to your friends and family.
- The business model is going to change a multi, multi billion dollar a year industry, the direct sales and home based business. The great aspect of the Le-Vel business is the **cloud technology**. Le-Vel owns all the technology for it to run on a day to day basis. What that means is we are able to do more things than other companies simply cannot do for *you*. We allow everyone to get their product for free with just referring two friends to order the product on the internet every month. Have you ever heard of a company doing this before? No, because I can tell you we are **the only company in the world** doing these things. That's why we are the hottest and fastest growing company on the internet that people are building their Le-Vel business from their lap tops and mobile phones. It's a legitimate business, because it's being driven by the product we market.
- Because we own all of the technology, we pay \$660 in bonuses to every person reading this message. \$660 paid out *to you* if you bring us \$800 in volume within your first 2 weeks. Now think about this. How are we able to do this? 13 months in a row we've been doing online sales and in the last 10 months our sales have been higher than the previous month. This is a huge piece of the puzzle. People are looking to represent a product that works. People are looking to represent a product that is ground breaking, but most importantly, if they are going to put their time and effort into something, they want to get paid. We want to build the business of the future that says, "We are a business that will put the money in the hands of the people who brought the sales to us." This business model will change the way people look at making an extra \$500-\$1000 per week, because we are going to have everyone realizing the money will go into your hands if you are the one bringing the business to us.
- The most important piece of this message is this: the Le-Vel business has been built on the foundation of what we believe is going to have over 1 million customers buying this product within our first 36 months of business-the **Thrive Experience**. If you know anyone that is looking for a ground breaking, category creating product that deals with anti-aging and within 1 day of you being on the Thrive Experience, you will look and feel ultra premium. We have 3 pharmaceutical grade formulations that we have put into the marketplace that we believe is going to build a billion dollar a year industry in the next 10 years.

We have the **Premium Lifestyle Capsules for Women and Men**. What does it do? The capsules are all natural and when you take it, **within 1 day**, your body will jump to peak performance. Within 1 day, **you will** know it's working in your body.

Our **Lifestyle Shake Mix** is designed work synergistically with the capsules, and you have to take them on an empty stomach. It will not work unless taken on an empty stomach and it has to be consumed at the start of your day. It has hard core pre and probiotics, and will flat out make your body feel like a billion bucks.

Our patent-pending technology, **Derma Fusion Technology**, is a foam adhesive. You put it on your shoulder right before you walk out the door.

All 3 of these products are impact products. Everyone who takes all 3 every day are getting and seeing results.

Everyone who is reading this message needs to take this very seriously. Our business is exploding. If you understand anything about business-it's not who you are or what you do for a living. It's about finding a business that people can be a part of in the beginning stages before millions of people know about it.

## Pain Relief - Just One of the Benefits of Thrive

The biggest thing that turned me **from a skeptic to believer** is when taking **THRIVE** on the first day, I felt a tremendous improvement in my arthritis pain level. After the 3rd day of consistently taking the product as directed, I was no longer suffering from any pain.

Now all I want to do it climb the highest mountain and scream out to everyone that there is hope for any one who suffers from **ANY KIND OF BODY PAIN!** No more suffering. No more prescription meds. No more, no more, no more!
