**daniellastowe** There's no greater feeling than becoming a parent. You want to give your kid the world and more and better than you could have ever imagined it for yourself. Something I've gotten to experience time and time again over the past year is waking up to the life you want for yourself. But this past month it had a whole different meaning and I had a different WHY this time, baby Liam 💙👶 life is always going to be happening to you, so the way I see it is take it as it's handed to you and slay your goals along the way, cause it's gonna happen but make it
